

Markit Loans Pricing

Markit Loans offers the most accessible and comprehensive pricing data in the market.

Benefits

- View close to 6,000 loan prices every day
- View average prices & underlying dealer quotes
- See which dealers are pricing each loan
- Identify advancers and decliners by day, week, month, or quarter
- Export pricing to Excel
- Filter by industry, price volatility, arranger, and more
- Follow historical price charts and graphs

Personalized View & Tools

Track the credits of greatest interest to you, using filters and online portfolios.

- Maintain and view your portfolio online
- Track price volatility within your portfolio
- Receive credit facility updates
- Track historical valuations
- Read real-time loan news
- Evaluate weekly refinancing risk analysis
- Find transaction details on 15,000 facilities

Easy Access to Prices

Marks are distributed to clients over a secure, easy-to-use web interface (download and export to Excel), or directly into your own custom application via Markit Loans' application interface (API). Markit Loans data is also available through Wall Street Office™ using a direct connection. Marks are automatically updated on a daily basis.
